

New Delta Dental of Missouri ID card

Your dental benefits say a lot about you. But not everything.

Your new Delta Dental ID card - with a member ID number - will be coming soon.

Being a member with Delta Dental says a lot about you. You receive great benefits, have access to a large network of providers, and you can expect unparalleled service. But, the dentist office does not need to know everything.

Soon, you will receive your new ID card with a member ID number on the card. This means you can show your new ID card when visiting the dentist office - and will not have to provide your social security number as your member ID. This gives you access to the same benefits and services, while also giving you increased peace of mind.

Thank you for being a member of Delta Dental. If you have any questions, please contact our customer service team at **800-335-8266**.
