Maybe. The UHC plan generally covers preventive services, as specified in the health care reform law, at 100% without charging a copayment, coinsurance or deductible, as long as they are received in the UHC health plan's network. UHC covers other routine services, which may require a copayment, coinsurance or deductible. Always refer to your plan documents for your specific coverage. Medical treatment for specific health issues or conditions, on-going care, laboratory tests or other health screenings necessary to manage or treat an already-identified medical issue or health condition are considered diagnostic care, not preventive care.

EMPLOYEE WELLNESS INCENTIVE FREQUENTLY ASKED QUESTIONS

Can my spouse/child participate in the employer paid H&H wellness screening?

No. The H&H screening only applies to you, the employee; however, when your spouse/child sees the physician for a wellness exam, the UHC plan typically covers preventive services. The wellness exam/screening only applies to benefit eligible employees.

If I fail to have a wellness exam/screening prior to April 30, 2018, can I ask for extra time to get the exam?

No. You had a full year notice, from May 1, 2017 to April 30, 2018 to complete the wellness choice. Extra time allowances will not be offered due to administrative requirements.

May I receive both an annual wellness exam from a physician and a health screening from H&H Health Associates?

Yes. You may receive both an annual wellness exam and health screening.

Should I get an H&H screening in lieu of an annual wellness exam by a physician?

While the H&H screening is a good wellness tool, it does not replace the importance of a comprehensive wellness exam, including lab work, by a physician on a regular and long term basis. We encourage you to develop a physician/patient relationship to enhance your quality of life. Your decision on receiving a screening in lieu of a comprehensive physician wellness exam is your prerogative.
