

# Broader Vision for Schools in Africa

**Broader Vision for Schools in Africa** in Kampala, Uganda is the newest project of Pan y Amor. Fr. George Ssemmbwe, a priest from Uganda, was sent by his Bishop to study in St. Louis, in order to prepare him to help street children and orphans whose parents died of HIV/AIDS in his native home country. Fr. George completed his MSW and MBA from Washington University, and in his final year in St. Louis, established Broader Vision for Schools in Africa. He will soon return home to Uganda to serve these children and orphans at Broader Vision School.

Broader Vision School will be located on ½ acre of land donated by the Diocese of Masaka, Uganda and will cost \$99,000 to build. It will provide education and classes for children in grades K-7 (the primary school system in Uganda), as well as dormitories to accommodate 200 children. The Uganda Ministry of Education will provide licensure for the school and will operate an examination center for students to qualify for secondary education. Because of the poverty of the students, outside financial support is needed for this project. Please consider supporting Broader Vision for Schools in Africa. **Thank you for your prayers and generosity!**

Name \_\_\_\_\_
